SUMMARY

Full Stack Developer with strong experience in building scalable web applications using Java, Spring Boot, Angular, and MERN stack. Skilled in REST API development, database management, and cloud-native DevOps practices including Docker, Kubernetes, and CI/CD. Proven ability to contribute in Agile environments and deliver reliable, production-ready solutions.

EXPERIENCE

Full Stack Developer — BNP Paribas Jul 2026 – Present

- Maintain and enhance enterprise banking applications using Java, Apache Struts, and Oracle Database.
- Resolve production bugs and implement new features based on Jira stories and business requirements.
- Develop UI screens, backend logic, reports, and optimize SQL queries, procedures, functions, and triggers.
- Collaborate in Agile teams using Git, Bitbucket, Maven, and Apache Tomcat for development and deployment.

Full Stack Developer Intern — BNP Paribas Jan 2026 – Jul 2026

- Migrated legacy banking applications by rebuilding frontend modules using Angular.
- Developed REST APIs, business logic, CRUD operations, authentication, and file upload features using Spring Boot.
- Integrated Angular frontend with Spring Boot backend and managed data using Oracle Database.
- Assisted in migrating applications from Velocity and Apache Struts while resolving migration and merge conflicts.

PROJECTS

E-commerce Clothing Store - React.js, Node.js, Express.js, MongoDB [Live Site]

- Developed a scalable e-commerce application with authentication, payment integration, and live order management.
- Integrated an AI-powered chatbot for enhanced user interaction; implemented microservices architecture, containerized with Docker, deployed on Kubernetes, and automated CI/CD using Jenkins.
- Deployed Prometheus & Grafana for monitoring, managed infrastructure using Terraform, and achieved zero-downtime releases through Blue-Green Deployment.

Online Food Ordering System - React.js, Node.js, SQL, Spring Boot [Github]

- Built a scalable food delivery app with role-based access, real-time order tracking, and payment integration.
- Developed backend APIs with Spring Boot, deployed the application, and ensured high availability and low-latency performance.
- Containerized services using Docker and configured CI/CD pipelines with Jenkins for automated deployment and smooth release cycles.

SKILLS

Programming Languages: Java, C, JavaScript, Python
Frameworks: Spring Boot, Angular, React.js, Django, Node.js, Express.js, Apache Struts
Databases: MySQL, PostgreSQL, MongoDB, OracleDB
Cloud DevOps: AWS, Docker, Kubernetes, Jenkins, Terraform, CI/CD
Tools & Concepts: Git, Jira, Data Structures, OOP, DBMS, REST APIs, BitBucket, Maven, Apache Tomcat, Postman

CERTIFICATIONS

- **Automation Anywhere Certified RPA Professional** – Certificate
- **ServiceNow Certified System Administrator** – Certificate
- **ServiceNow Certified Application Developer** – Certificate
- **Red Hat Certified Enterprise Application Developer** – Certificate
- **Microsoft Azure AI Fundamentals (AI-900)** – Certificate

EDUCATION

KL University **2022 – 2026**
B.Tech in Computer Science and Engineering CGPA: 9.52

LEADERSHIP & VOLUNTEERING

Lead Web & Full Stack Developer, Software Engineering Association Club Dec 2024 – Present
Student Peer Mentor, Guided students in web development concepts and coding best practices.
guided them to complete real-world projects. Jul 2023 – Present
